Engineering and Mining Journal

INDEX

Volume 136

JANUARY TO DECEMBER

1935

McGRAW-HILL PUBLISHING COMPANY, INC.
330 WEST 42nd STREET • NEW YORK, N. Y.

Science Main

Engineering and Mining Journal

Index to Volume 136

January to December 1935

Explanatory Note

THE general index to this volume is preceded by a list of the editorials published in the volume, and is followed by an index of authors. In the general index editorials are denoted by the letter "e" and news items by the letter "n." Following is a list of the pages included in the numbers of the volume by date:

January ..... 1 to 56
February ..... 57 to 108
March ..... 109 to 160
April ..... 161 to 212
May ..... 213 to 264
June ..... 265 to 316
July ..... 317 to 368
August ..... 369 to 432
September ..... 433 to 484
October ..... 485 to 536
November ..... 537 to 588
December ..... 589 to 640

Editorials:

Assessment work suspension, a hardy annual 266
Aviation and mining 537
Bureau of Mines policies emphasize economic studies 57
California proposes to tax gold production 590
Canadian treaty affects few mineral products 589
Confidence in stability of metal prices returns 433
Copper conference reaches agreement.. 162
Definite data on Transvaal gold..... 265
Engineering index should be supported.. 485
Engineers cooperate for professional advancement 266
Federal legislation affects mining industry 433
Foreign copper control 58
Further attack on silicosis evil 485
Futility marks the Washington scene.. 317
Galvanizing campaign a selling job.... 317
Gift from the tax gatherer 110
Industrial unions challenge the crafts.. 590
Loose talk about silver 434
Money for modernization 317
NRA and mineral industries 162
New Philippine government inherits mining industry 485
New procedure in the solution of mining problems 58
Nickel-munition or industrial metal?... 434
Profit and loss of mining corporations.. 589
Recovery is impeded by the drive for reform 213
Repercussions of reciprocity 110
Scrap and secondary metals need statistical study 318
SEC continues to expose fraudulent mine promotion 589
Securities Commission stops mining fraud 213
Silicosis compensation in New York State 318
Soviet gold—statistical puzzle..... 265
Stream pollution by mill tailings..... 162
Study the proposed national mineral policy 161
Supreme Court holds NRA codes invalid 265
Trends toward stability in the mining industry 1
Work-relief funds and the mineral industries 109

GENERAL INDEX

A

Abimbo Syndicate n424
Accounting—When the small operator figures cost. A. L. Russell 503
Adams 91
Adelong Gold Dredging n473
Africa—African mineral areas united by air service. R. Brenard *567
Agua Fria—Exploiting gold ore in Honduras. S. E. Hollister *69
New diesel *103
Air conditioning—East Rand Pty. to cool air by refrigeration 313
Ajax n187, n244
Alabama n350
Alabama-California Gold..... n626
Alaska n626
Airplanes expedite Alaskan survey. P. S. Smith *565
Alcaparra n196
Aldermac n302
Alexandria n625
Alma District—Output chiefly gold. H. L. Tedrow 405
Alta Champion n141, n253, n348
Alta Helena n522
Alta Tunnel n348
Alta Vista n625
Aluminum Co. of Canada n422
Alunite—Sugarloaf butte deposit. R. E. S. Heineman *138
Alvarado n38
Amador Star n89
Amarillo Gold n348
American Flag n38, n297, n620
American Fork Canyon n522

American Institute of Mining and Metallurgical Engineers:

Abstracts of papers read at annual meeting:
Aviation in engineering geology 126
Control of drill dust 123
Cyanidation practice at Kirkland Lake 123
Fine grinding and classification..... 122
Geophysical atlas 128
Gold at Hog Mountain 126
Iron ore beneficiation 125
Magnetic prospecting on the Rand.. 121
Million tons of potash 127
Processing limestone by flotation.... 124
Refractories industries 127
Some ore-bearing fractures 125
Woolrocks of Illinois 128
Program for meeting *95
San Francisco regional meeting..... 572
American Kirkland Gold n466
American Metal n621

American Mining Congress:

Chicago meeting 515
Program for meeting n470
Report of Washington meeting *32
American Smelting & Refining..... n38, n45, n46, n152, n190, n253, n348, n465, n469, n471, n516, n522, n525, n573, n574
New stack for plant at Garfield. C. C. Burt *227
American Zinc Institute—St. Louis meeting *247
American Zinc, Lead & Smelting... n577, n627
Amparo n88, n306, n415
Amulet Operating n421
Amy-Matchless n46
Anaconda Copper n46, n91, n297, n621
Andalusite—Refractory material obtainable in sand of Transvaal 184
Andesite n297
Andrews n244
Annie Laurie Consolidated Gold.... n38, n297
Antamok Goldfields n88, n92, n356, n579
Antimony—Strategic minerals and metals. R. S. McBride *7
Apex Standard n192
Appalachian gold possibilities 183
Argentine n98
Argonaut n36, n141
Arizona Comstock..... n36, n192, n349,, n521
Arizona Copper Belt n91
Arizona Magma n152
Arizona Molybdenum n195, n518
Arntfield n248
Arroyo Seco Gold Dredging Co..... n626
New dredge at Ione, Calif. J. B. Huttl. *494
Ashanti Goldfields n250, n526
Ashley n149
Assaying—Arc spectograph for mineral analysis John Herman e*632
Eight cupels made at one time by laboratory machine at Wright Hargreaves.. *600
Sampling Yellow Aster tailings. A. B. Sabin *444
Assessment work. A. W. Newberry c309
Assessment work suspension e266
Associated Northern Blocks..... n629
Athona n629
Atlantic & Pacific n144
Atlas Gold n192
Auburn-Chicago n572
Aurora n465
Austerlitz n244
Austin Silver n349, n573, n621
Australia—Geological map of areas in northern Australia to be made..... n357
Mining and the airplane. H. S. Elford. *568
Avalos n626

Aviation:

Aerial photography for mining..... *538
Aeronautical research holds possible aids to mine problems *563
African mineral areas united by air service. R. Brenard *567
Air transport in Dominion's mining industry *548
Air transportation for business. D. S. McAfee c583
Aircraft speed opening of Canada's mineral resources. W. A. Gordon..... *544
Airplane in mining *541
Airplanes an aid in geologic studies. F. J. Alcock *546
Airplanes expedite Alaskan survey. P. S. Smith 565
Airplanes used in mining. E. J. Clement. *560
Australian mining and the airplane. H. S. Elford *568
Aviation and mining. H. F. Guggenheim 540
Development of mining aviation, 1919-1935 553
Geophysical mapping from the air. C. A. Heiland 609
J. E. Hammell, pioneer aerial prospector. *551
Heavy mining machinery flown in modern airplane *585
Mapping Michigan for geologists. Talbert Abrams *564
Metals in airplanes *557
Mine freight by air in South America. William Van Duzen..... *569
Platting maps for aerial photographs. C. H. Birdseye *558
Surveying from the air. O. M. Miller.. *555
Aviation number. ..... November
Avoca, Vic. n357

B

B. C. Nickel n43, n249, n303, n423, n578
B.R.X. n97
Bagdad Copper n152
Baguio Gold n356
Baker Divide n572
Balatoc n92, n356, n424, n579
Bald Mountain Gold n97
Bannack n297
Basin Goldfields n144, n470
Basin Montana Tunnel.. n46, n144, n191, n490
Bay State n89
Beattie n42, n200, n249, n302
Beaver Crown n416
Beck n195
Beebe Gold n89, n298, n350, n626
Belmont n38, n348
Ben Franklin n626
Bendigo n99, n630
Beneficiadora de San Jose de las Bocas.. n250
Benguet Consolidated.... n*92, n356, n424, n579. n630
Benguet Exploration n357
Beryllium—Industrial markets developing for uncommon metals and alloys. B. H. Strom *20
Big Bell n99, n306
Big Canyon n191, n350
Big Comstock n193
Big Hill n349, n522
Big Jim n195, n244, n421
Big Missouri n200, n524
Big Seven n297, n470
Bird Dog n517
Surface transport of ore and tailings in the Tri-State District. W. F. Netzeband *601
Bird in Hand n99
Bismuth — Industrial markets developing for uncommon metals and alloys. B. H. Strom *20
Black Bear n244
Black Canyon n195, n421
Black Hawk n469
Black Oak n350
Black Rock Gold n195
Blasting—Safety primer for blasting. G. S. Rive c427
Safety primer for blasting. Thomas Soule *235
Blue Bell n195, n253
Blue Bird n37
Blue Eagle n464

Blue Light n35
Blue Mound n517
Bob Hauska n297
Bobjo n149
Bol-Inca Mining—Placer mining on the Rio Kaka *132

Book Reviews and Digests:

Alloys of iron and copper. Gregg & Daniloff 50
America's capacity to consume. Leven, Moulton & Warburton 205
Architectural structural and monumental stones. Thiel & Dutton 478
Autobiography of John Hays Hammond 310
Canadian trade index, 1934 50
Capitalism carries on. W. B. Pitkin.. 205
Check sheet. O. C. Holleran 478
Chromite deposits of Newfoundland. A. K. Snelgrove 50
Engineering index 362
English-Russian mining and metallurgical glossary. N. I. Trushkoff..... 206
Estadistica minera y metalurgica de espana 478
Gas coke, and byproduct making properties of American coals. Fieldner & Davis 258
Geology of volcanic area of Bufumbira, Southwest, Uganda. Combe & Simmons 50
Getting acquainted with minerals. G. L. English 258
Handbook for prospectors. M. W. von Bernewitz 530
Influence of cupels on silver loss. T. T. King 362
Le foncage des puits de mine en terrains aquiferes. M. Biquet 50
Logarithms, numerical and graphical. N. R. Corke 310
Marketing industrial equipment. Bernard Lester 258
Mine finders. B. F. Townsley 530
Mineral industry, ed. G. A. Roush.... 530
Minerals yearbook, 1934 50
Mining manual for 1935 478
Mining year book, 1935 comp. W. S. Skinner 206
Ores and industry in South America. Bain & Read 155
Primer of money. Woodward & Rose.. 258
Production and price of copper. C. L. Knight 258
Sauzug-sintern und rosten. H. B. Wendeborn 310
Stone industries. Oliver Bowles..... 50
Strategy of raw materials. Brooks Emeny 205
Streckenausbau mit stahl. Rudopf Wurker 206
Technologie miniere. Castelain & Stalinsky 478
Transactions of the American Geophysical Union 155
Boriana n*242
Boston n464
Boulder County—Production of metals in Boulder County. C. O. Larson *406
Boulder Dam power line survey..... n621
Boulder Perseverance n64
Bradian n356, n423
Bralorne..n148, n201, n248, n303, n355, n472, n524
Brazil—Promulgation of new trade agreement n146
Briarcliff n626
Bridge River Consolidated n356
Briseis n202
Bristol n254
British Columbia—Mineral production in 1934 43
Broken Hill n150
Broken Hill South n473
Buck & Charley n193
Buckeye n349
Buckhorn n37, n90
Buena Vista n152, n250
Buffalo-Ankerite n302, n354
Buffalo Consolidated n522
Bullion Gold n301, n626
Bulolo Gold Dredging n150, n151
Bundi Tin Dredging n202
Bunker Chance n353, n465
Bunker Hill n466
Bunker Hill Arizona n37
Bunker Hill & Sullivan..... n190, n193, n523, n577, n622
Wage increase n296
Burma n201, n526
Burton n627
Bushtick n357, n580
Bussieres n200, n248
Ventilating stopes through boreholes. C. F. Jackson *284
Butler Bros. n625
Butte Copper & Zinc n46
Butte Highlands Gold n91, n144, n297
Button & Mason n580
Byers n466

C

Cactus Queen n464
Cadmium—Industrial markets developing for uncommon metals and alloys. B. H. Strom *20
Calcium—Industrial markets developing for uncommon metals and alloys. B. H. Strom *20
California—Activity in camps of Southern California. J. B. Huttl *343
California Copper n421
California Standard Gold n464, n516
Calumet & Hecla Consolidated..n46, n91, n195, n243, n251, n254, n354, n418, n466, n523, n577
Camp Bird—Mining operations. C. N. Bell 392
Campania Minera de Chururribari..... n152

Canada:

Air transport in Dominion's mining industry *548
Aircraft speed opening of Canada's mineral resources. W. A. Gordon..... *544
Airplanes an aid in geologic studies. F. J. Alcock *546
Aviation in engineering geology (A.I.M.E. meeting) 126
Dominion gold. J. B. DeMille..... 175
Geological surveys to be made..... 302
Gold exports from Canada n472
Hollinger respirator. Jones & Macleod. *115
Mineral output in 1934 42
Mining industry hopes for new examination of mine taxes 578
Non-ferrous mining industry unaffected by trade-pact n628
Quebec & Ontario mines operate under an "NRA" 354
Taxes impose no hardship 199
Canadian Institute of Mining & Metallurgy —Vancouver meeting n628
Canadian Mining & Development n517
Canadian Malartic n248, n355
Canadian Reserve n302
Cananea Copper n627
Canisteo n98
Cardin Mining & Milling n627
Cardinal Gold n421
Cariboo Gold Quartz....n97, n201, n248, n303, n423, n524
Cariboo King Gold n97
Carson Hill Gold n298, n421, n572
Mining gold. J. A. Burgess *111
Casterson n301
Castle Peak Quicksilver n621
Cedar Island n355
Celebration n202
Central n90
Central Eureka n36, n89
Central Manitoba n473
Central Patricia n200, n302, n355, n628
Central Porcupine n43
Cerro de Pasco—Modified Betts process successful with lead bullion. Harper & Reinberg *119
Cerro de Pasco Copper n*45
Champion n251
Charles Snyder n572
Charm n348
Cherry King n38
Chicago-Auburn n298, n350
Chief Consolidated n98
Chief Consolidated Apex Standard n296
Chromite—Philippines a source of chrome ore. Ralph Keeler *612
Chromium Mining & Smelting n473
Cia de Minerales del Potosi..... n525
Cia Explotadora de Minas n152
Cia Mexicana de Mercurio n196
Cia Minera de Panuco n415
Cia Minera de Penoles n415, n525
Cia Minera de Real del Monte y Pachuca... n88, n152
Cia Minera de San Felipe n579
Cia Minera de San Jose de Moranon.... n415
Cia Minera de San Jose de Pachaca..... n358
Cia Minera del Monte n45
Cia Minera dos Estrellas....n358, n415, n627
Cia Minera La Herradura y Anexas..... n88
Cia Minera la Masata y Anexas..... n525
Cia Minera La Piedra Bola n152
Cia Minera La Quimica y Anexas..... n45
Cia Minera Natividad y Anexas..... n88
Cia Minera Plomosa n471
Cia Minera Santa Maria del Oro....n152, n627
Cia Minera Santa Teresa n88
Cia Minera y Beneficiadora Zacatecana de Oroy Plat n306
Cia Minera y Fundidora n306
Cinco Mineros n572
City Deep n629
Clear Creek and Gilpin Counties and their production. A. W. Newberry 410; correction 529
Climax—Premier producer of molybdenum. W. J. Coulter *401
Cloudy Day n37
Coahuilla n577, n627
Cobalt—Industrial markets developing for uncommon metals and alloys. B. H. Strom *20
Cocks Eldorado Gold n99, n473
Coco Grove Placer 424

Codes:

Code making 576
Conference on the code n623
FTC codes n420
Mining executives' opinions on current economic problems *14
Supreme Court holds NRA codes invalid.e265
Supreme Court voids codes 295
Zinc code signed 190
Zinc code questioned 243
Coeur d'Alene.....n143, n252, n416, n577

Colorado:

Alma District—output chiefly gold. H. L. Tedrow 405
Boulder County shippers. C. O. Larson..*406
Clear Creek and Gilpin counties mining. A. W. Newberry 410
Climax—premier producer of molybdenum. W. J. Coulter *401
Cooperative geological program. C. W. Henderson 414
Cripple Creek geology. G. F. Loughlin.*372
Cripple Creek—Golden Cycle mill serves mine. M. W. Bowen 381
Cripple Creek mine practice. Bebee & Vidler 378
Front Range and its geological structure. T. S. Lovering *411
Mining on the Continental Divide (picture feature) 402
Mosquito and Sawatch Ranges. C. H. Behre, Jr. *398
On the Front Range (picture feature). 408
San Juan employs flotation in milling. C. A. Chase *395
San Juan geology. W. S. Burbank....*386
San Juan mines in production. C. N. Bell.*392
Storehouse of varied mineral wealth. C. W. Henderson *369
Columbia Steel n192
Columbus-Rexall.....n253, n348, n417, n469
Comanche Gold Dredging n516
Comanche Placers n516
Comet n297, n470
Comet Star n305
Commerce Mining & Royalty n195
Commonwealth Development n91
Como n90, n193, n254, n349, n417
Comstock-Dexter n152, n348

Concentration:

Big Canyon's surface plant. J. B. Huttl.*216
Corduroy as a gold saver. M. W. von Bernewitz *63
Iron ore beneficiation of Lake Superior shipments (A.I.M.E. meeting)..... 125
Ore-pulp distribution for dividing pulp in four parts *188
Recovering zinc and vanadium at Rhodesia Broken Hill Plant. T. R. Pickard *489
Removal of small pieces of wood from the mill circuit 183
Special launder for table *71
Sunshine improves practice and increases silver output. J. T. Shimmin..... *267
Congress n244, n249
Coniaurum n43, n96, n199
Conico n517
Consolidated n97
Consolidated Arizona Copper n244
Consolidated Coppermines.n90, n254, n349, n621
Consolidated Gold n37, n195
Consolidated Gold Alluvials.n148, n472, n578
Consolidated Mercur n192
Consolidated Mining & Smelting..... n44, n97, n150, n248, n249, n302, n422, n472, n473, n628, n629
17 years of friendly cooperation between men and management. S. G. Blaylock..*455
Consolidated Virginia Mining n573
Consumer Gold Dredging n626
Contention n464

Copper:

Conference reaches agreement e162
Copper sheets for modern home *479
Foreign copper control e58
Monthly metal prices 1920-1933..... supplement January
New voluntary code for copper 520
N'Kana copper mining. Harrison & Mackay *591
Outlook for 1935. W. W. Lynch..... *24
Recovering zinc from copper smelting products. Ralston, Fowler & Kuzell.*167
Research at Michigan College..... 91
Russian copper. Riddell & Jermain... *82
Vertical casting of copper at Carteret. B. H. Strom *59
World copper producers reach constructive agreement *189
World production 1930-1934..... supplement January
Copper Cliff n149
Copper Queen..... n348, n421, n518
Copper Range n251, n523, n622
Cornucopia, Oregon — tellurides. G. E. Goodspeed *72
Cornwall n421
Cortez-King Brand n517

Costs:

Cost of producing an ounce of gold. C. N. Schuette 177
Gold mining costs at Hog Mountain. N. O. Johnson *505
Indifference to the mine shop costs money in many ways. F. W. Gravlin.. *77

N'Kana copper mining. Harrison & Mackay *591
Production costs at Michigan iron mines 342
Some mine concrete costs. M. J. Elsing.. 184
Transportation costs of ore and tailings in the Tri-State District. W. F. Netzeband *601
Treated and untreated timber costs. H. E. Tufft *606
Creighton n149
Cripple Creek—Geology of ore deposits receiving study. G. F. Loughlin..... *372
Golden Cycle mill offers roasting, cyanidation and concentration. M. W. Bowen 381
In and around Cripple Creek (picture feature) 376
Mine practice. Bebee & Vidler 378
Crown King Consolidated.....n152, n301
Crown Point n521, n621
Cusi Mexicana n45
Cusihuiriachic—geological studies. R. T. Donald *614

D

Dan Tucker n254
Dawes Gold n193, n350
Dayrock n194
Dayton Consolidated n254
Demonstration Gold n92, n424
Denney n627
Dentonia n148, n303, n524
Desert n142
Desilting plant *479
Diamond Joe n349
Dick Lamson n349
Dik-Dik n302, n628
Dines n142
Dives n37
Divide Extension Consolidated n37
Dixie Valley n37, n90, n297
Dome n65, n422, n472
Don Jorge n196
Donwoody n354, n418
Double Eagle n89
Drainage—Tri-State flood control cuts mine pumping. E. W. McCuskey *319
Draper n350
Dredge for Arroyo Seco Gold. J. B. Huttl. *494
Dredge, Natoma gold placer. J. B. Huttl.. *270
Drills and drilling—Detachable bits cut drilling costs at Spring Hill.....*229
Drum Mountain n621
Dunrobin n250
Durango n306
Dust—Control of drill dust at St. Joseph Lead (A.I.M.E. meeting) 123
Hollinger respirator. Jones & Macleod..*115
Dutch Guiana. See Surinam.

E

Eagle n253
Eagle-Picher n243, n517, n627
Surface transport of ore and tailings in the Tri-State District. W. F. Netzeband *601
Workmen strike 295
Eagle-Picher Mining & Smelting..n418, n577
Producing lead at Galena smelter. Hallows & O'Harra *435
Eagle Shawmut n298
Early Bird n251, n418
East African Goldfields.....n358, n580
East Emma n37
Easy Money n418
East Rand Pty.—Mine air to be cooled by refrigeration 313
East Standard.....n36, n254, n348, n417

Edith n421
Edjudina Gold n630
Egan n142
Eileen Alannah n250
El Bote n249
El Comal n196
El Gachupin n196
El Limon n249
El Ricon n415
Eldorado n423
Electrolytic Zinc n202
Elgin & Ogden n143, n195
Elko Prince n90
Elkoro n621
Elso n421
Emperor n202, n357, n580, n630
Empire n37, n252, n350
Empire Star n191, n421
Grass Valley gold mines hold their place. J. B. Huttl *617
Empress n191, n350, n572

Engineering:

Engineers cooperate for professional advancement e266
Higher status for engineers. C. F. Hirshfeld 324
Opportunities for mining engineers. E. A. Holbrook *286
Engineering and Mining Journal—Historical summary 3
Engineers—Mining engineer educates young Hondurans. W. H. Parker.....c*49
Co. Crawford seeks government positions for engineers 34

Equipment:

Acetylene generators 429
Alloy steels used in mining field. B. H. Strom *450
Belt, oil resisting 532
Belt, traveling, as gold catcher.....*209
Belting, hot material 260
Belting, rubber 584
Blasting material 105
Blueprint machine 209
Brake, magnetic disk 363
Breaker and sheeting driver 428
Bucket, all welded 209
Bucket dump *335
Bucket, grab 363, 429
Bucket, grab, motorized 260
Cable 635
Cable to resist abrasion 365
Cap, safety 260
Classifier, bowl *313
Classifier, screen wheel *207
Clinker cooler 532
Compressor, air 363, 531
Compressor, air cooled 532
Compressor, centrifugal 209
Compressor, portable 209
Compressor, stationary 105
Compressor, two stage 260
Concentrating tables 208
Concentrator, portable *428
Conveyor, trough 481
Coupling, pin 428
Coupling, self-aligning *584
Crane, high capacity 51
Crusher, large capacity 428
Crusher, reduction 52
Crusher and pulverizer *533
Device for measuring areas *259
Dipper, aluminum *481
Drill, churn *481
Drill, diamond, gasoline driven *51
Drill, electric *480
Drill, hammer 208
Drill, sinker *105
Drill, wagon 53, *103
Drill with balloon tires 532
Drilling rig 365
Electrode for restoring edges 261
Electrode, hard surfacing..... 207
Engine, diesel *103
Engine, industrial *635
Explosives and detonators 363
Eyepiece, measuring *636
Fan, propeller blade *584
Filter, drum *364
Filter, vacuum *104
Fire-extinguishing appliance 429
Floor resurfacer 261
Flotation, pocket edition *52

Valley Forge Cement—Processing limestone by flotation (A.I.M.E. meeting)..... *124
Vanadium—Recovering zinc and vanadium at Rhodesia Broken Hill plant. T. R. Pickard *489
Vancouver Island Gold n149
Velie n627
Ventilation—Boreholes used for ventilating raises and stopes. C. F. Jackson.... *284
Ventures, Ltd. n248, n422
Vicour n150
Victorian Gold Alluvials n473
Vidette n43, n97, n356, n524
Virginia City Gold n470

W

Wadsworth Hill n98
Walker Copper n421, n469, n523, n572
War Eagle n353
Waste—Reclaiming metals from slag ..*600
Wayside n43, n356, n578
Weaver n195
Webb City Lead & Zinc n577
Weepah n349
Weepah-Nevada n417, n521
Wendigo Gold n355, n472
West Dip n38, n296
West Side n37
Western n630
Western Apex n38
Western Diatomite Products n574
Western Feldspar—Colorado quarry yields feldspar. S. A. Ionides..... *513
White Caps Gold n193
White Eagle n97
White Pine n622
Wiluna Gold n473, n524
Windpass n149
Witwatersrand—Operating costs low.....n526
Witwatersrand Deep n151, n629
Wood, treated and untreated. H. E. Tufft..*606
Woolrocks of Illinois (A.I.M.E. meeting) 128
Wright-Hargreaves—Eight cupels made at one time by laboratory machine..... *600
Magnetic pulley for removing iron from grinding circuit at cyanide plant....*103

X

Xerxes n573

Y

Yakima Shoshone n465
Yankee n469
Yankee Girl n97, n148
Yellow Aster n89, n243
Change in flotation cell improves recovery. A. B. Sabin *68
Cyanide plant to treat tailings at Yellow Aster. W. L. Brown..... *597
Sampling tailings. A. B. Sabin *444
Yellow Pine—Skip-changing device *76
Yellowdine.n151, n202, n305, n424, n473, n630
Ymir n44, n97
Ymir Consolidated Gold n524, n578
Ymir Yankee Girl n524
Young n36
Youngman & Youse Mining n577
Young-Davidson n43, n149, n628
Yuba n297
Yuba Consolidated Gold.n191, n350, n516, n626

INDEX OF AUTHORS

Abrams, Talbert: Mapping Michigan for geologists *564
Alcock, F. J.: Airplanes and aid in geologic studies *546
Anderson, John Carter: Essential criteria in examining gold quartz mines *445
Anderson, L. Douglass: Maintaining ore flow through bins *223

Bach, J. J.: Panner's role in placer drilling 323
Barnes, H. B.: Unusual haulage service. *70
Bebee, A. H., and W. R. Vidler: Mine practice closely linked with leasing system 378
Behre, Charles H., Jr.: Mosquito and Sawatch Ranges, a distinct mineral province *398
Bell, Charles N.: Active San Juan mines include old producers *392
Bellinger, H. C.: Appreciation of Walter A. Perkins c48
Bird, Paul H.: Mounting concentrates and tailings for microscopic study.....*233
Birdseye, C. H.: Platting maps from aerial photographs *558
Blaylock, Selwyn G.: 17 years of friendly cooperation *455
Bowen, Max W.: Golden Cycle mill serves Cripple Creek well 381
Boyman, E. C.: Determining cyanide and sulphocyanate in small amounts..... 280
Brenard, R.: African mineral areas united by air service *567
Brown, Walter Lyman: Tailings treatment at Yellow Aster successfully under way *597
Buckey, Philip B.: Design of mine roofs and supports c427
Bucky, P. B., and A. S. Toering: Mechanics and mining *74, *178
Burbank, W. S.: Camps of the San Juan —geologic studies are sought for ore development *386
Burch, Albert: Appreciation of Caetani.. c48
Burgess, John A.: Mining gold on Carson Hill *111
Burt, C. C.: New stack for the Salt Lake Valley *227
Butler, M. M.: Design of mine roofs and supports c427

Chase, Charles A.: Flotation widely employed in San Juan milling *395
Clement, E. J.: Airplanes used in mining..*560
Coulter, W. J.: Climax—premier producer of molybdenum *401

Dean, R. S., John Gross and C. E. Wood: Preparing ore by explosive shattering.*281
DeMille, John B.: Dominion gold 175
Dolbear, Samuel H.: Weighing new offerings of mining securities .....l 621
Donald, Robert T.: Geological study at Cusi reveals new ore *614

Elford, Harold S.: Australian mining and the airplane *568
Elsing, Morris J.: Some mine concrete costs 184

Fox, S. R.: Dragline excavator in placer mining *162
Fowler, M. G., O. C. Ralston and C. R. Kuzell: Recovering zins from copper smelter products *167
Franks, W. Ernest: Native mercury in Mexico 237

Gelbke, A. W., and F. W. Gravlin: Correcting power factor at mine plants..*331
Goodspeed, G. E.: Tellurides at Cornucopia *72
Gordin, W. A.: Aircraft speed opening of Canada's mineral resources *544
Gravlin, Frank W.: Equipping the shop at small mines *238
Indifference to the mine shop costs money in many ways *77
Gravlin, Frank W., and A. W. Gelbke: Correcting power factor at mine plans..*331
Gross, John, R. S. Dean and C. E. Wood: Preparing ore by explosive shattering.*281
Guggenheim, Harry F.: Aviation and mining 540

Hallows, R. L., and B. M. O'Harra: Producing lead at the Galena smelter..*435
Hardinge, Harlow: Hadsel mill redesigned.*311
Harper, T. E., Jr., and Gustave Reinberg: Modified Betts process yields refined lead bullion *119
Harrison, A. Royden, and K. E. Mackay: Mining 200,000 tons of copper per month at N'Kana *591
Heiland, C. A.: Geophysical mapping from the air 609
Heineman, Robert E. S.: Sugarloaf butte alunite *138
Heinz, C. E.: How to make an alignment chart *230
Nomograph for calculating slime-density relations *457
Yankee ingenuity in a Tri-State mill.....*135
Henderson, Charles W.: Colorado points the way to cooperation 414
Colorado—storehouse of mineral wealth..*369
Herman, John: Arc spectograph for mineral analysis c*632
Hickman, Norman: Zinc *27
Hill, James M.: Wake up, placer operator! 496
Hirschfeld, C. F.: Higher status for engineers 324
Hoen, W. M.: Photoelectric cell controls hoist c427
Holbrook, E. A.: Opportunities for mining engineers *286
Hollister, S. E.: Exploiting a gold ore deposit in Honduras *69
Huttl, John B.: Activity spurred in camps for Southern California *343
Arroyo Seco's new dredge *494
Big Canyon's surface plant *216
Gold placer mining revived at Lincoln..*440
Grass Valley gold mines hold their place*617
Montezuma-Apex—newest mother lode producer *173
Natomas dredge of new design *270

Ionides, S. A.: Feldspar producer in Colorado *513

Jackson, Charles F.: Ventilating raises and stopes through boreholes *284
Jermain, G. D., and G. C. Riddell: Russian copper *82
Johns, John W.: Further tests in flotation of free gold 498
Johnson, James: Corcuroy as a gold saver.c309
Johnson, N. O.: Southern gold at Hog Mountain *505
Jones, W. A., and D. A. Macleod: Hollinger respirator *115

Keeler, Ralph: Philippines a source of chrome ore *612
Kirby, A. G.: Mining industry's apathy toward federal aid c102

Labbe, Charles: Sinking a 200-foot prospect shaft for $3,000 .....*131
Traveling school of mines c361
Lane, Alfred C.: Wanted, basalt specimens.c257
Lange, L. H.: More facts on the flotation of free gold 116
Larson, C. O.: Many shippers in Boulder County *406
Lin'gren, Waldemar: Harry C. Boydell..c583
Lindsay, Lionel: Appreciation of Caetani. c48
Loughlin, G. F.: Cripple Creek today—geology of ore deposits *372
Lovering, T. S.: Structure controls deposition of ore in front range areas....*411
Lynch, W. W.: Copper *24

Mackay, Kenne h E., and A. R. Richardson: Mining 200,000 tons of copper ore per month at N'Kana *591
MacLeod, D. A., and W. A. Jones: Hollinger respirator *115
Maguire, W. S.: Shaft hoisting capacity increased by combination cage and skip *220
Martin, Gail: New accessories feature U. S. Smelting underground hoist installations *129
McAfee, Daniel S.: Air transportation for business c583
McBride, R. S.: Strategic minerals and metals *7
Tin problem in the United States.... 170
McCuskey, E. W.: Tri-State flood control cuts mine pumping *319
Middleton, John L.: Gold mine of St. Barbara *279
Milburn, T. H.: Milburn formula....c257; correcion 309
Miller, O. M.: Surveying from the air . . . its scope and limitations *555
Moore, B. H.: Ore-dressing research at Kalgoorlie c361

Netzeband, W. F.: Surface transport of ore and tailings in the Tri-State District.*601
Newberry, A. W.: Eight mills in Clear Creek and Gilpin counties 410
Metallurgy at Clear Creek c529
Should assessment work be suspended?.c309

O'Harra, B. M., and H. L. Hallows: Producing lead at the Galena smelter..*435

Parker, Walter H.: Mining engineer educates young Hondurans c*49
Parsons, G. Chauncey: Industrial pension legislation looms 80
Pensions for workers under the new Social Security Act *486
Pawel, G. W.: Nickel . . . and the United States *459
Pickard, T. R.: Recovering zinc and vanadium at the Rhodesia Broken Hill plant *489
Place, A. E.: Recovering $500,000 with $5,000 134

Ralston, O. C., M. G. Fowler and C. R. Kuzell: Recovering zinc from copper smelter products *167
Read, J. Burns: Experimenting in the mine.*511
Reinberg, Gustave, and T. E. Harper, Jr.: Modified Betts process yields refined lead bullion *119
Rey, Maurice: Fatty acid and soap flotation applied to oxidized copper ore..... 221
Rise, George S.: Notes on blasting with safety primers 427
Riddell, Guy C., and G. D. Jermain: Russian copper *82
Russell, A. L.: When the small operator figures cost 503

Sabin, Alfred B.: Sampling Yellow Aster tailings *444
Simple change in flotation cell improves both concentra e and tailing.. *68
Schroter, G. Austin: Geologist visits the Mohave mining district *185
Schuette, C. N.: Cost of producing an ounce of gold 177
Shimmin, J. T.: Sunshine mine increases silver output *267
Sinclair, W. E.: Delivering ore in chutes.*499
Smith, Philip S.: Airplanes expedite Alaskan survey *565
Soule, Thomas: Blasting with safety primers *235
Stanley, Robert C.: Nickel 28
Stewart, L. D.: Model of mine *439
Strom, B. H.: Advance of the alloy steels.*450
Alloy cast irons win place in mining..*290
Industrial markets developing for uncommon metals and alloys *20
Vertical cas ing of copper at Carteret.. *59

Tedrow, H. L.: Alma's output chiefly gold. 405
Toering, A. S., and P. B. Bucky: Mechanics and mining *74, *178
Traill, James G.: Glory-hole surveying at Fresnillo *333
Tufft, Harry E.: Treated timber as a mining asset *606

Van Dusen, William: Mine freight by air in South America *569
Vidler, Walter R., and A. H. Bebee: Mine practice closely linked with leasing system 378
Von Bernewitz, M. W.: Corduroy as a gold saver *63

Warner, Robert K.: Weighing new offerings of mining securities.....500, c631
Weinig, A. J.: Wanted—an index for measuring the surface of a mineral powder.*336
Wood, Carl E., R. S. Dean and John Gross: Preparing ore by explosive shattering *281
Wormser, F. E.: Lead *25

Yeatman, John A.: Appreciation of L. C. Trent c256
